

The Morning After

City of Dallas
Park and Recreation Department

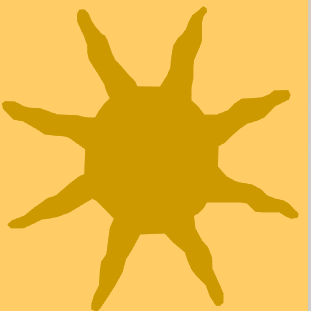

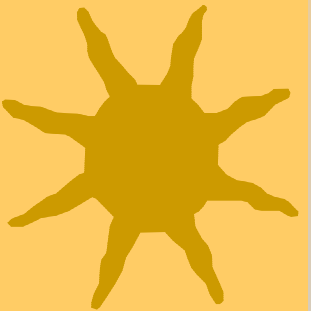

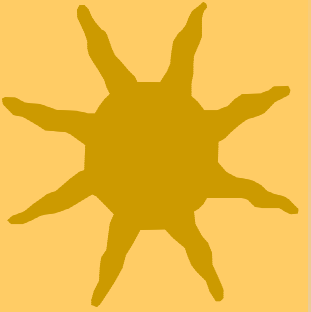

-
- Last year the Park and Recreation Department spent over \$180,000 just to take all the litter to the dump

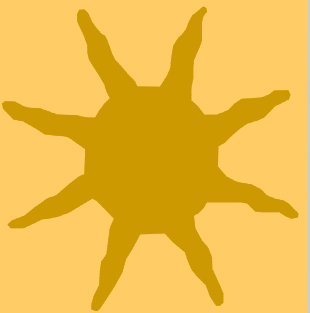

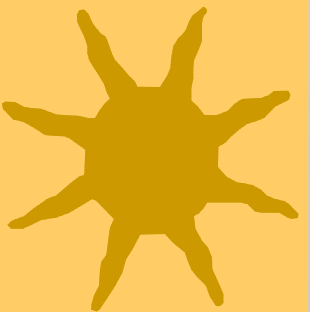

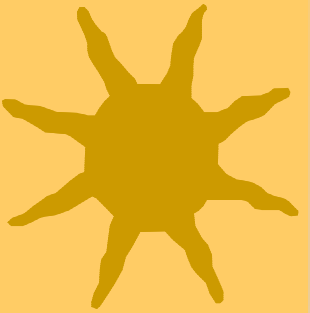

- Due to the amount of litter in the parks **ALL** park maintenance staff pick up litter on Mondays

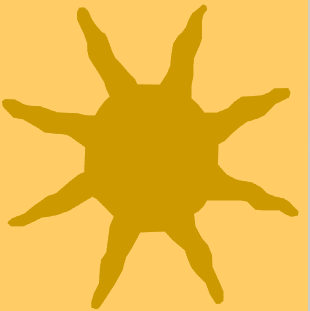

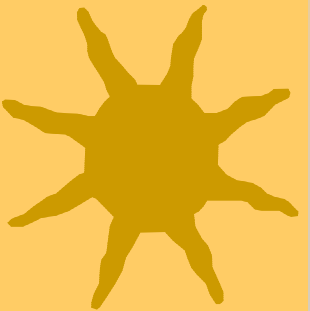

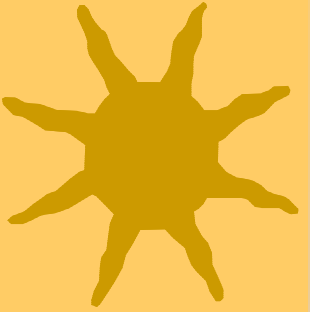

-
- Other functions of park maintenance such as forestry, mowing and athletic field maintenance are suspended while the crews pick up litter.

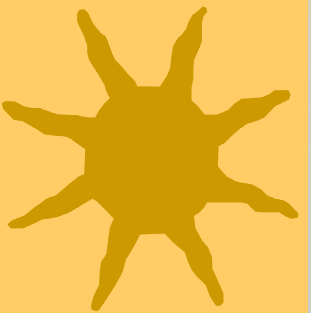

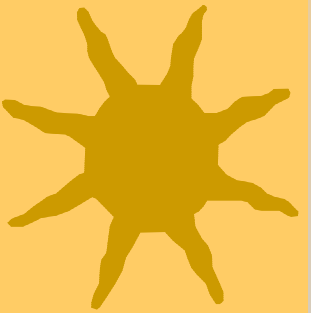

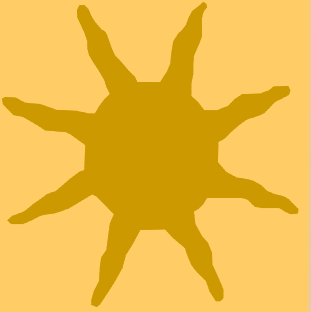

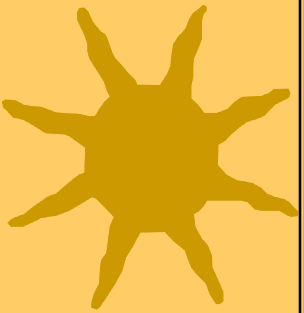

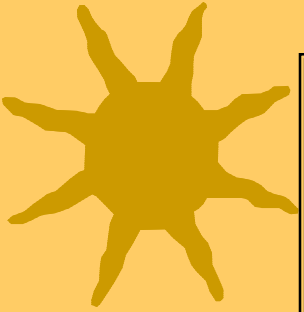

- It is illegal to drink alcohol in parks

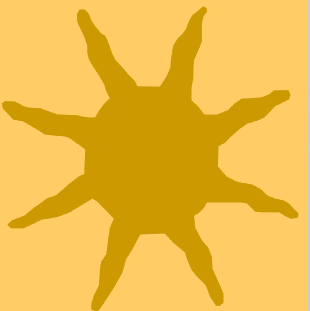

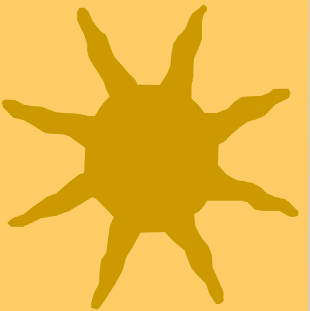

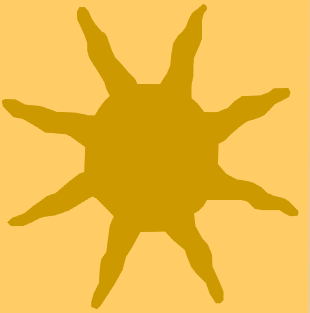

With everyone's assistance we can curb the massive litter problem thus allowing the Park Maintenance staff to maintain the parks not just pick up litter
