

December 2021

# Parkdale Lake Land Aquisition

In 2020, Oncor began the process of donating Parkdale Lake and the surrounding land west of White Rock Creek to the City of Dallas for the Circuit Trail Conservancy to use to address flooding, and to the Park and Recreation Department for use as future park land to serve the community.

This new greenspace will allow Dallas residents to not only safely walk and bike in an area of natural beauty, but will also create a connection point between neighborhoods and the rest of Dallas.

Parkdale Lake is the largest parkland dedication in Dallas since 1937. The result of a joint effort between Oncor Electric Delivery, the City of Dallas and the Circuit Trail Conservancy (CTC), the nonprofit completing The LOOP, a 50 mile walk and bike trail connecting north, south, east and west Dallas.

Find all project details by visiting The Loop - Parkdale Lake:
